FREE FULL DAY TRAININGS!

Best Practices in Infection Control in Ambulatory Surgery Centers and Other Outpatient Settings

Purpose

To provide a forum for frontline staff to increase their knowledge and skills related to basic infection control practices specific to ambulatory healthcare settings. The importance of ensuring a culture of safety to promote best practices will be included.

Offered in 4 cities

November 1 • Blue Springs
Courtyard by Marriott & Adams Pointe
Conference Center

November 2 • Columbia
Peachtree Catering & Banquet Center

November 7 • St. Louis
Drury Inn & Suites Near Forest Park

November 18 • Springfield
DoubleTree by Hilton Hotel

Directions to these locations
are available at
nursingoutreach.missouri.edu

Nursing CE Credit available!

Sessions on

- Why all the fuss?
- Basic infection control principles to guide practice – which is best: soap & water or alcohol handrub?, what are “standard precautions”? special considerations with HBV, HCV, and HIV? What’s the 1-1-1 rule?
- Safe Injection Practices – CDC’s One and Only Program
- Cleaning, disinfection and sterilization – is there a “best” disinfectant? what can safely be reused? are reusables really cheaper? how do I package and store equipment? common breaches?
- Establishing an environment where individuals are free to speak up when they encounter an unsafe practice
- Regulatory requirements and guidelines to promote safe care

Check-in 8:15am

Adjourn 3:45pm
